Professional Experience

Software Engineer <i>LTIMINDTREE</i>	October 2021 – present Kolkata, India
--	--

As a Software Engineer at Mindtree, I have gained valuable experience working under the ServiceNow Cloud Domain. As a Certified System Administrator(CSA), I have applied my knowledge in ServiceNow System Administration and ServiceNow Developer roles to provide solutions to clients.

- Developing and implementing software solutions.
- Collaborating with cross-functional departments to achieve project objectives.
- Participating in code reviews and improving code quality.
- Debugging and troubleshooting issues.

- Conducting research on emerging technologies and suggesting improvements to current systems.

Software Developer (Internship)

2021 – 2021

XcitEducation Foundation

- Developed and maintained software solutions
- Collaborated with development teams to implement solutions
- Conducted testing and debugging of software applications

Game Developer (Internship)

2020 – January 2020

Team Everest

Projects

P&G (LTIMINDTREE)

2021 – present

Software Engineer

In my current role at LTIMINDTREE, I work as a Software Engineer under the ServiceNow Cloud Domain on the **P&G** project. I am responsible for developing and implementing software solutions, collaborating with cross-functional teams, conducting code reviews, debugging and troubleshooting issues, and researching emerging technologies for system improvements.

PG-Life

Web Development

As a personal project, I created the website "**PG-life**" focused on Paying Guest rooms for students across Indian cities. Developed using HTML, CSS, and JavaScript, the website aimed to provide a convenient platform for students to find suitable accommodations

UrbanEcoSystem

Client Website Development

As a freelance project, I developed the plant-based e-commerce website "**UrbanEcosystem**," aiming to bring nature closer to urban India. It offers a wide range of unique solutions, including plants, pots, and aquariums, to create green ecosystems within urban spaces, catering to the needs of individuals seeking a nature-centric lifestyle.

Puroheet Website

Freelancing project

As a freelancer, I created a website called **Puroheet**, offering online Hindu pujas and havans services. The platform allows users to book qualified and experienced pandits for various rituals, providing puja samagri and ensuring a satisfying and divine puja experience.

Age Calculator

Personal Project

As a personal project, I developed an **Age Calculator** website using JavaScript. It enables users to input their date of birth and accurately calculate their age

Weather App

Personal Project

As a personal project, I developed a **Weather App** to accurately measure temperature in any city. It provides current weather information, including conditions, temperature, humidity, wind speed, and also visualizes daily temperature and humidity changes.

Certificates

ServiceNow System Administrator(CSA)

Micro Certificate on Virtual Agent (ServiceNow)

Data Structure & Algorithm (Upgrad)

Digital India for AI (Intel)

TCS iON Career Edge-Young Professional (TCS iON)
